

Policy Name: Student Declaration of Current Address and/or Relocation
Policy Number: ADM 1.11
Title of Policy Owner: Dean of Administration
Policy Type: RHEI/Shared Services BSMCON SCHS SOMI
Approved by: RHEI Leadership Team
Effective Date: 7/1/2024
Version: 3.0
Policy Status: Approved

I. Policy

It is the policy of the Bon Secours Southside College of Health Sciences (SCHS or the College) to require students to provide their current address and to update their records if their address changes during their enrollment at the College.

II. Purpose

To maintain accurate student address information for the purposes of College communications and dissemination of information related to professional licensure disclosures.

III. Scope

This policy applies to prospective and enrolled students of SCHS.

IV. Definitions

Address: the physical address where the student resides while engaged in educational activity provided by SCHS.

Enrolled Student: denotes the status of a SCHS student who has completed the registration requirements for an academic program at SCHS.

SIS: the information system used to manage and/or administer student data including, but not limited to, application, admission, registration, Financial Aid, Student Accounts, academic records, etc.

Prospective Student: denotes the status of an individual who has requested information about enrolling at SCHS or who has been contacted by the College about enrolling either directly or indirectly through advertising.

Title IV Regulations: are requirements imposed under Title IV of the Higher Education Act of 1965, as amended, that regulate federal financial aid.

Last Modified Date:	6/3/2024		

Student Responsibilities

Upon enrollment in a program at SCHS, it is the Enrolled Student’s responsibility to provide the College, via the student portal of the Student Information System (SIS), the Enrolled Student’s Address and submit a copy of their government-issued ID, which serves as the basis of determination of the Enrolled Student’s Address. Further, it is the Enrolled Student’s responsibility to notify the College, via the student portal of the SIS (available on the School’s/College’s website – Quicklinks section), of any change of Address while enrolled. A change of Address must be submitted within five (5) business days after the change becomes effective and this serves as the basis of determination of the student’s Address.

College Responsibilities

Nursing

SCHS offers one nursing degree that awards an Associate of Applied Science degree in Nursing on campus and leads to professional licensure as a registered nurse.

Radiologic Technology

SCHS offers a program that awards an Associate of Applied Science degree in Radiologic Technology. The curriculum prepares individuals to enter the workforce as entry level Diagnostic Radiologic Technologists, also known as Radiographers. Graduates of the program are eligible to apply for national credentialing through the American Registry of Radiologic Technologists (www.arrt.org). The Associate of Applied Science degree in Radiologic Technology is a terminal occupational degree and the credits generally earned are not applicable to other degrees.

SCHS follows the American Society of Radiologic Technologists (ASRT) curriculum in Radiography. The ASRT curriculum serves as a blueprint for educators to follow in designing their programs to ensure that their programs match the standards of the profession and that students who complete the program are eligible for the ARRT certification examination. As of June 2024, once a graduate of SOMI becomes a Registered Radiologic Technologist through the ARRT, they are eligible for employment in any U.S. state as a certified Radiologic Technologist. Other states may require a state licensure that differs from the ARRT certification and registration before obtaining employment in that state. Each state can be contacted for information and full requirements. The School provides state specific professional licensure information on it’s website at www.smhsomi.edu.

Diagnostic Medical Sonographer

SCHS offers a program that awards an Associate of Applied Science degree in Diagnostic Medical Sonography. The curriculum prepares individuals to enter the workforce as Sonographers. Graduates of the program are eligible to apply for national credentialing through the American Registry of Diagnostic Medical Sonographers (www.ardms.org). The Associate of Applied Science degree in

Diagnostic Medical Sonography is a terminal occupational degree and the credits generally earned are not applicable to other degrees.

As a higher education institution that offers programs in undergraduate nursing, radiologic technology, and diagnostic medical imaging and administers federal financial aid funds in accordance with Title IV – Higher Education Act of 1965, as amended (Title IV Regulations) as further described in ADM 4.02 Federal Financial Aid Programs policy, it is the responsibility of the College to inform Enrolled and Prospective Students, in writing, through email, and on the College website (<https://www.schs.edu/certification-and-state-licensure-disclosures>), of:

- i. Any state(s) for which the College’s curriculum meets that state’s requirements for professional licensure or certification.
- ii. Any state(s) for which the College’s curriculum does not meet that state’s requirements for professional licensure or certification.

SCHS is approved to operate by the State Council of Higher Education for Virginia (SCHEV) and its programs are accredited by the following agencies:

Nursing: Programmatically accredited by Accreditation Commission for Education in Nursing (ACEN).

Radiologic Technology: Programmatically accredited by Joint Review Committee on Education in Radiologic Technology (JRCERT). Accreditation from JRCERT fulfills the requirements for the American Registry of Radiologic Technologists (ARRT) certification and registration. SCHS follows the American Society of Radiologic Technologists (ASRT) curriculum in Radiography. The ASRT curriculum serves as a blueprint for educators to follow in designing their programs to ensure that their programs match the standards of the profession and that students who complete the program are eligible for the ARRT certification examination. As of June 2024, once a graduate of SCHS becomes a Registered Radiologic Technologist through the ARRT, they are eligible for employment in any U.S. state as a certified Radiologic Technologist. Other states may require a state licensure that differs from the ARRT certification and registration before obtaining employment in that state. Each state can be contacted for information and full requirements.

Diagnostic Medical Sonography: Programmatically accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS). Accreditation from JRC-DMS fulfills the requirements for the American Registry of Diagnostic Medical Sonography (ARDMS) certification and registration. SCHS follows the CAAHEP curriculum in Sonography. The CAAHEP curriculum serves as a blueprint for educators to follow in designing their programs to ensure that their programs match the standards of the profession and that students who complete the program are eligible for the ARDMS certification examination. As of June 2024, once a

graduate of SCHS becomes a Registered Diagnostic Medical Sonographer through the ARDMS, they are eligible for employment in any U.S. state as a certified Registered Diagnostic Medical Sonographer. Other states may require a state licensure that differs from the ARDMS certification and registration before obtaining employment in that state. Each state can be contacted for information and full requirements.

SCHS provides state-specific professional licensure information on its website - <https://www.schs.edu/certification-and-state-licensure-disclosures>

For a student enrolled prior to July 1, 2024, in accordance with Title IV Regulations, if the student relocates and changes address to a state other than Virginia during her/his enrollment with SCHS and follows the requirements of this policy to notify the College of such, SCHS provides individual notification to that student if SCHS's curriculum does not meet licensing requirements in that state. Notification will be delivered to the student's SCHS email address through the SIS within 14 calendar days of the College's receipt of the relocation information.

For a student enrolling on or after July 1, 2024, in accordance with Title IV Regulations, the student may not be eligible to receive federal financial aid if, at the time of the student's initial enrollment or upon the College's formal receipt of information from the student, the student resides in a state for which the College's curriculum does not meet that state's requirements for professional licensure or certification (category (ii), above). A student covered by the circumstances described in the preceding paragraph may only receive federal financial aid if (1) the student provides an attestation to the College that he or she intends to seek employment in another state following completion of the College's program, and (2) the College's curriculum does meet that other state's requirements for professional licensure or certification (category (i), above).

If a student is located or relocates to a state in which SCHS does not have authority to operate, or SCHS's curriculum does not meet licensing requirements in that state, the student's eligibility for federal financial aid may be adversely impacted, which may affect the student's ability to finance and/or complete a program.
